Summary

Aspiring Full Stack Developer with strong knowledge in HTML, CSS, JavaScript, and React. Passionate about building intuitive Rest api. Experienced in creating full-stack projects using the MERN stack.

Skills

Languages: JavaScript, Python, Java
Web Tech: HTML5, CSS3, React.js, Node.js, Express.js
Database: MongoDB
Tools: Git, VS Code, Postman

Projects

Ecommerce Site

- Developed a full-fledged online store for fruits, vegetables, and provisions using React.js and Tailwind CSS.
- Integrated shopping cart, filtering, and checkout flow for a smooth user experience.
- Backend powered by Node.js and MongoDB for handling orders and user accounts.

Secure Vault

- Built a secure password manager web app using the MERN stack.
- Implemented authentication with JWT and password encryption using bcrypt.
- Users can categorize and manage credentials safely within a protected vault UI.

Notes-Taking App

- Created a minimalist app to add, edit, delete, and search notes in real-time.
- Used local storage and React state management for seamless performance.
- Designed for fast note-taking with a clean and responsive interface.

Education

B.Tech in Cybersecurity

Shiv Nadar University Chennai

Relevant Coursework: Data Structures, Web Development, Cryptography

[2028]
